The ₹42.35
Lakh Crore

Math Trap

. #MARKETDEBUNK

The Core

Illusion Exposed

By Math

✗ RETAIL ILLUSION

Retail belief: Fraud is just phishing calls and isolated incidents affecting naive victims.

✓ INSTITUTIONAL TRUTH

Institutional truth: ₹42.35 Lakh Crore is a systemic liquidity drain forcing tighter settlement rules and banking freezes on all retail accounts.

The Hidden **Cost of** Systemic Friction

VERIFIED MARKET IMPACT

₹42.35 Lakh Crore

Total Global Fraud Loss

This massive capital extraction forces banks to implement aggressive compliance filters. For the retail trader, this manifests as delayed settlements, unexpected account freezes, and increased transaction costs that erode net portfolio yields.

The Mechanism *of Capital* Extraction

1

2

3

How Your ***Yield Quietly*** Evaporates

When systemic fraud spikes, the 'cost of trust' rises. Financial institutions pass this burden to retail users via higher platform fees, restricted liquidity windows, and mandatory compliance buffers. You aren't just losing capital to scams; you are losing efficiency to the defensive walls built to stop them.

The Non-Negotiable *Execution Rule*

Never execute capital transfers through third-party intermediaries or unverified fintech overlays. To maintain portfolio integrity, mandate direct clearing corporation settlement exclusively through SEBI-registered brokers. If the path between your bank and the exchange is obscured, your capital is at risk.

Pre-Trade Risk

Audit Checklist

- ✓ Verify broker is SEBI-registered.
- ✓ Confirm direct clearing house settlement.
- ✓ Avoid all third-party payment overlays.
