Why is *your stock* portfolio bleeding

Market Debunk

#MARKETDEBUNK

Headline Index *vs Real* Stocks

❓ COMMON QUESTION

If Nifty falls only 91 points, my individual stocks must be safe.

✅ SOURCE-BACKED ANSWER

432 stocks hit 52-week lows because small and mid-sized companies faced severe selling.

Why the *Main Index* Hides Loss

{'body': 'Main indices like Nifty give huge weight to a few giant companies. If those top giants stay steady, the Nifty index looks stable even while smaller company stocks suffer massive price drops.'}

Portfolio Health Checklist

What Remains Uncertain

{'body': 'It is uncertain whether large companies will eventually fall or if small stocks will recover. Avoid panic selling, but do not buy blindly just because prices look cheap.'}
