What is *the Repo* Rate?

? COMMON QUESTION

✓ SOURCE-BACKED ANSWER

Does your **existing FD** change?

Myth: My current FD interest rate will automatically increase because of the RBI announcement. Reality: No. Your existing FD is locked at the interest rate you agreed upon when you opened it. It will not change until the deposit reaches its maturity date.

Will all ***banks raise*** rates instantly?

FD

Why small *changes matter*

Even a small increase in the interest rate can lead to a noticeably higher maturity amount on deposits ranging from Rs 1 lakh to Rs 10 lakh. Always calculate the total interest earned over the full tenure before deciding.
