Losing Rs
2.60 lakh
in minutes:

The Cost *of a* Click

stat_data Exact amount lost by the elderly victim in the Telangana dry fruits delivery cyber scam. Rs 2.60 lakh Total Financial Loss Reported by Telangana Today

How the *Trap Begins*

card_text Scammers often send unexpected text messages about a pending parcel or dry fruits delivery, tricking victims into clicking a harmful link or paying a small fee.

The Scam Pathway

flowchart_data 1. Fake SMS alert received about a delivery 2. Victim clicks an unverified link 3. Fraudsters gain remote access or payment details 4. Life savings drained instantly

Expectation vs. **Reality**

comparison_data Reality: Delivery scams exploit trust and urgency, whereas legitimate couriers never ask for online payments via unknown third-party APK files or random links.

Immediate Safety

Checks

checklist_data Verify the sender before paying. Status: Check. Never click links for unverified packages. Status: Check. Keep elderly family members informed about digital scams. Status: Check.

What Remains

Uncertain

card_text Cyber cell investigations take time, and recovering stolen digital funds remains extremely difficult once the money moves through multiple accounts.
