Think ₹25 *lakh gets* you into

The New

Entry Point

SEBI has introduced the 'PRIM' route, which officially lowers the minimum investment required for Portfolio Management Services (PMS) from ₹50 lakh down to ₹25 lakh. stat_data

What is PMS?

PMS is a professional service where experienced managers handle a customized portfolio of stocks or bonds specifically for you, rather than a pooled fund like a Mutual Fund. card_text

The Renewal

Trap

The catch: Every time your contract comes up for renewal, the system treats it as a 'fresh investment.' This means you must meet the ₹25 lakh requirement all over again. comparison_data

The Market Risk

If the market drops and your portfolio value falls below ₹25 lakh, you may face structural hurdles when your contract is due for renewal. card_text

The Renewal *Decision Flow*

1. Contract ends. 2. Portfolio value is checked. 3. If value < ₹25 lakh, renewal is blocked. 4. You may be required to top up capital to continue.
flowchart_data

Your Pre-Renewal

Checklist

Check your contract renewal terms. Monitor your portfolio value regularly. Be prepared to add capital if market dips pull you below the threshold.
